Pahokee To Play Seahawks Tonite

The Pahokee Blue Devils, held to a scoreless tie by the Fort Pierce Eagles last week, will try to get back in their winning stride as they meet the Seacrest Seahawks on Lair Field here tonight at 8:15.

Coach Webb Pell has warned his Blue Devils not to underestimate the power of the Seahawks. Although at present they occupy the conference cellar they have been bucking hard luck this season with some key players on the sidelines and made their best showing of the season against Clewiston last week. If Coach Jim Flechtner has the Seahawks in good shape and ready for tonight's contest we are going to have a tough battle, Pell said.

The Blue Devils are reported to be in good condition for this game. Pell, who has been pleased with the work of Max Beverly as defensive left end, plans to start Earl Meredith as offensive left end if Pahokee receives the ball at the kickoff. He also plans to start Harry Sheppard at right guard instead of Gene Pearce.

There are no changes in the starting backfield where Senior Halfback Pat Turbeville is expected to keep the Seahawks' defense loose with his versatile talents of

Chamber Will Seat Its New Directors

The executive board of the Pahokee Chamber of Commerce at the regular meeting in the chamber office made plans for the annual directors' dinner meeting to be held Monday night, Oct. 17, when newly elected directors will be seated and new officers elected for the 1955-56 year. The new directors are Mrs. Clark Wilkinson, Jack Spencer, C. A. Batchelor, Olaf Boe and Louis Gold.

It was voted that the chamber sponsor a contest to find a suitable name for the new improved Pahokee waterfront that will come into being with the construction of the breakwater. There are no restrictions on the number of names any one person may send in as entries, however, all entries must be mailed to the chamber office, Box 115, before midnight, Oct. 31, in order to be eligible for the prize, a \$25 government saving bond. The judging committee will be appointed jointly by the Chamber of Commerce and the City of Pahokee. The winning name will be subject to approval by the City Council. Construction of the breakwater by the Clery Bros. Construction Co., contractor, is expected to get under way soon. The breakwater steel arrived from Belgium at the Port of Palm Beach the past week and is being moved by the contractor to the Pahokee waterfront.

It was reported that the questionnaires recently sent to members by mail to obtain their reaction to the proposed city mail carrier service revealed that more than 90 per cent favored such a service.

James W. Vann, chairman, was asked to have his industrial-agricultural committee bring the area's economic data up to date and ready for report at the November meeting.

It was announced Dr. Richard C. Lane, optometrist, on invitation by a chamber committee, has established an office at 37 East Main, Pahokee.

Monty Montaine Is Rotary Club Speaker

Monty Montaine of Miami, newspaper sports editor, was guest speaker at last week's Thursday luncheon meeting of the Pahokee Rotary Club. Introduced by B. He extended an invitation to club members to attend as a body the Gulfstream Park on Rotary Day next April.

Jim Seay, Pahokee High School Senior, was inducted as the student member of the club for the current school year. Seay, president of the PHS Student Council, was recently voted by his classmates as the best all-round Senior boy. He introduced Neely Johnson, another PHS Senior who is this year's student member of the Pahokee Lions Club, as a guest.

Carolyn Hickerson Weds Mr. Jernigan

Miss Carolyn Hickerson, daughter of Mr. and Mrs. Fred T. Hickerson of Pahokee, became the bride of Charles Jernigan, son of Mr. and Mrs. F. M. Jernigan of Pensacola, in a double ring ceremony held at the Parsonage of the Pahokee First Methodist Church Saturday, Oct. 8, at 9 a. m.

The vows, read by the Rev. A. D. Houglin, pastor were repeated by the couple in the presence of immediate members of the family.

The bride wore a blue tulle gown with navy and white accessories and a corsage of white carnations.

Following a week's honeymoon at Pensacola, Mr. and Mrs. Jernigan will be at their home in the Farrow Apartment on Flame Ave. She is a graduate of Pahokee High School, Class of 1955. He attended the Pensacola High School and served in the U. S. Navy before coming to Pahokee where he is now employed by Shirley Brothers, Inc.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The county commission this week received bids for completing the county jail and installation of additional detention equipment.

Apparent low bidder on the project was Arnold Construction Company of Palm Beach at a price of \$152,077. The bids are being tabulated by County Engineer Steve Middleton for referral back to the commission.

Middleton was also instructed by the commission to get approval from County Sheriff John Kirk on all phases of the project.

In other actions the board: Called for a public hearing on abandonment of a Lake Worth street as requested by the Lake Worth commission.

Balked at issuing a fire arms permit for a private investigator to serve a north county area.

Voted to call for bids on automotive liability insurance for county owned vehicles.

Took under advisement, a request from the Riviera Beach Jaycees, asking county funds for park improvements.

Heard a report from Commissioner Roy Michael that reconstruction work on South Ocean Blvd., is underway.

Clearing the way for a \$4 million bond issue to finance road and bridge improvement, the County Commission Monday approved a new resolution putting financial arrangements in the hands of the state instead of private financial advisors.

The new resolution, according to the commission, makes sale and validation of the bonds the responsibility of the Florida Improvement Commission. Under the new policy adopted by the state groups, all bond issues which are cleared through the improvement commission, no private fiscal agents will be used.

The new resolution provides that costs to the county for handling the bond issue will not exceed one percent of the total of the bonds. That provision expected engineering costs which the commission said are not available at this time.

The county, for several months,

has been proceeding with arrangements for the bond issue and had employed Sullivan, Nelson and Goss, West Palm Beach bond firm and Hazlett and Erdal, St. Louis engineers, to aid in drafting plans for the issue.

The commission Monday cancelled the engineering contract. The bond firm surrendered its contract to the commission in the interest of county progress—an action which drew commendation from the commission.

The county board has already spent \$4,500 for an engineering survey on one of the bridge projects in the issue—an amount which it hopes to have refunded by the state. County Engineer Steve Middleton told the board that in all probability the state road department would continue the county's contract with the St. Louis engineering firm.

Lawn Mower Cowboy Loses Tip Of Finger

It's good to make fun out of work—up to the point where it is no longer funny. Alton (Hotshot) Mims, 11-year-old son of Mr. and Mrs. Louis Mims, was having lot of fun mowing the lawn Saturday morning with his father's riding-type, motor driven rotary mower and playing cowboy at the same time. He was becoming quite proficient at leaning out of the saddle seat and raking the trash away from the mower while moving at full speed when he misjudged the distance of his hand from the whirling blade and zip, off went the end of the little finger of his left hand and another finger was cut to the bone!

Hotshot stayed overnight at the Everglades Memorial Hospital while receiving treatment and it still was fun being a center of attraction, being waited on by nurses and telling over and over again to the many friends who called just how it all happened.

Rubin N. Bergendoff, member of the firm of consultants for the Florida Turnpike Commission, said he expects the Florida turnpike to save 40 lives in its first year, based on statistics compiled on other through-ways.

Barbecue Pit Fire Cause For Engine Run

Pire Chief Marvin Levins and his volunteer firemen were called to the home of Mr. and Mrs. Harold Wilkinson at 305 Cypress Ave. Saturday afternoon to put out a fire that flared up when Mr. Wilkinson poured some gasoline, which he thought was kerosene, from a five gallon can on to some smouldering coals in a barbecue pit.

As the flaming gas spread over his hands and arms he gave the can a wild swing to get rid of it and it landed on one of his ton and a half trucks which he had parked nearby. Since there was only a small quantity of gasoline in the can the fire was extinguished before doing much damage to the truck, but Chief Levins says it is a miracle the can of gasoline didn't explode while he held it in his hands.

Will Lift Milk Price Control

TALLAHASSEE—Circuit Judge Hugh Taylor held last week that the State Milk Commission had the power to lift milk price controls and there was ample evidence to support its action in suspending the controls for a one-year period.

Taylor made these findings in a memorandum filed with the court following up his order of the previous week dismissing a suit by 121 milk producers and distributors. The producers appealed the ruling to the State Supreme Court and a hearing on it has been scheduled for October 17.

The Florida Farm Bureau recently approved the architect's drawing for its new headquarters building which will be erected near Gainesville. The building will be Early Colonial. Total cost will be about \$200,000.

"The Atomic Kid"

MICKEY ROONEY

Benjamin Franklin, whose birthday is January 17, was expert in handling money and his advice is as sound today as 200 years ago. All quotations here are from his booklet, "The Way To Wealth," published 1760.

Ben Franklin gives you some expert advice about Payroll Savings

"What though you have found no Treasure, nor has any rich Relation left you a legacy, Diligence is the Mother of Good Luck."

Have you ever wished you had \$1,000, \$5,000 or more—to buy a car, get a home, help you toward retirement? Today, it is actually easy to save such large sums! Because, today, you can have your saving done for you—with automatic diligence—through the Payroll Savings Plan.

"If you would have a faithful Servant, and one that you like, serve yourself."

Serving yourself means *keeping* some of the money you make each week and investing it, for yourself. Here's how: you just name a sum to your company's pay office—a few dollars or as much as you want. Each payday, that sum will be saved from your pay, before you get your check and invested for you in one of the world's finest investments, U. S. Series E Savings Bonds!

"Little Strokes fell great Oaks."

Because Savings Bonds earn good interest, they're soon worth more than the money you've invested in them. And how your savings mount up! Sign for as little as \$5.00 a week and in 9 years, 8 months, you'll have \$2,850 cash. In 19 years, 8 months, you'll have \$6,872!

"One To-day is worth two To-morrows, and farther, Have you somewhat to do To-morrow, do it To-day."

For your own sake, don't put off joining the 8 million Americans who are making their dreams come true through Payroll Savings. Sign up for Payroll Savings today. Or, if you're self-employed, invest in Savings Bonds regularly where you bank. If you want your interest as current income, ask your banker about 3% Series H Bonds which pay interest semiannually by Treasury check.

Christian Science Group Of Canal Point

Man's responsibility to make religion practical in his activities throughout the week will be emphasized in the Lesson-Sermon entitled "Doctrine of Atonement" at Christian Science services Sunday.

Spiritual selections include Paul's advice to the Hebrews (4:14): "Seeing then that we have a great high priest, that is passed into the heavens, Jesus the Son of God, let us hold fast our profession."

Also pointing up the need for emulating the master Christian is the following passage to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (37:22-25): "It is possible,—yea, it is the duty and privilege of every child, man, and woman,—to follow in some degree the example of the Master by the demonstration of Truth and Life, of health and holiness."

100 Miles Of Turnpike Now Under Contract

DANIA — Approximately 100 miles of the 110-mile Miami to Fort Pierce bob-tailed turnpike will be under the contract for grading, draining and fencing when contracts are awarded for bids to be received by the Authority October 20.

At that time bids will be received for grading and draining two more sections of the toll superhighway in Broward County. The other runs about six miles northeasterly from State Road 7, about a half mile north of Prospect Road, to the west end of Sample Road.

Board Turns Down Request For Bridge

The county commission Monday turned down a request to consider construction of another bridge over the West Palm Beach Canal to open up a privately owned sub division. A request for the bridge was entered by G. F. Laughlin, who accused the commission of retarding the growth of the area because plans for an additional bridge between Forest Hills Blvd. and Congress Ave., was not in the immediate future.

Commissioner Lake Lytal, sounding the opinion of the board, said there was no justification for bridge plans for this time since the area to be served is only sparsely settled. Lytal declared that the county is not going to build a bridge from taxpayers money to serve private interests seeking to raise land values.
